ABSTRACT

The following instructions summarize main demands for the camera-ready paper for IEPC-01. Two column format must be used with the title and author information centered across both columns on the first page. Dimensions of the paper are specified bellow and given on the template as well. LATEX editor is recommended for the final paper with its IEPC01.STY available for authors on the conference WWW page.

1 INTRODUCTION

Conference Proceedings will be printed directly from papers prepared by authors. To achieve uniformity of conference materials manuscripts must follow directions given in this sample document prepared according to rules for the first paper page.

2 GENERAL INSTRUCTIONS

The contribution must not exceed 2 pages including abstract, text, figures, tables and bibliography. In case of longer papers contact, please, organizing committee. The IEPC01 secretariat must receive the paper in postscript or PDF form through the conference WWW page by July 10th, 2001 together with its camera ready printed version sent by post. Use, please, black and white high quality printing (preferably on laser printer).

2.1 Style Guidelines

All manuscripts must be single spaced in the specified two column format. It is suggested to use roman style and to select its size of 10 pt for the text.

The paper title must be printed in boldface capital letters, centered on the top of the two columns of the first page. Suggested type size is 17 pt.

The authors' names must appear in the italic style of size 12 pt followed by authors' affiliation, address, phone, fax and e-mail in the italic style of 10 pt centered bellow the paper title according to the template. In case of multiple authors the area of authors' information may be enlarged.

Each paper must contain an abstract of about 100-150 words printed in the bold type style. References must be appended in the alphabetic order [1].

Major headings should appear in bold capitals, subheadings in bold lower case letters and subsubheadings in lower case italic style.

2.1.1 Figures

Suggested type size for figure captions is 9 pt (see Fig. 1).

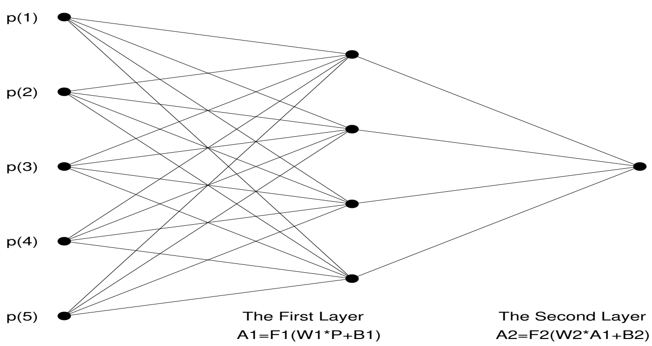

Fig. 1: Basic neural network structure

2.1.2 Tables

Table captions must be above tables and 10 pt small capitals must be used. (see Tab. 1).

3 CONCLUSION

The suggested paper styles must be followed to include papers into Proceedings. According to the template the text should not exceed the size of 180 mm x 240 mm. Document style and this sample text is available on the http://iepc.vscht.cz/.
